RED HAT SYSTEM ADMINISTRATION III WITH RHCE EXAM

ADVANCED SKILLS FOR THE EXPERIENCED LINUX ADMINISTRATOR

COURSE OVERVIEW

Red Hat System Administration III with RHCE® Exam (RH255) is designed for experienced Linux administrators who require networking and security administration skills. With a heavy emphasis on practical, hands-on labs, this course is tightly aligned with experienced Linux administrators' job tasks and the skills required for advancement. Focus is placed on enhancing the students' automation skills to securely configure, deploy, and manage network services, including DNS, Apache, SMTP, and network file sharing. In addition, this course emphasizes security, including monitoring, packet filtering, access controls, and SELinux. At the completion of this course, students already familiar with the RHCSATM administration skills will have exposure to all competencies tested by the RHCSA and RHCE exams. This class includes the RHCSA and the RHCE exams.

AUDIENCE

- Senior Linux system administrators who require networking and security administration skills
- Linux IT professionals who currently have RHCT or RHCSA certification and are interested in earning an RHCE certification
- Linux IT professionals who can demonstrate the competencies needed to earn an RHCSA but have not passed the RHCSA exam provided with the Red Hat System Administration II course

PREREQUISITES

- RHCSA Rapid Track Course (RH200) or Red Hat System Administration I & II
- Equivalent experience to the RHCSA Rapid Track Course
- Skills required to earn an RHCSA certification
- Confirmation of the correct skill set required for this course can be obtained by passing the online pre-assessment quiz at **redhat.com/explore/pre-assessment**

RED HAT CERTIFICATIONS

Red Hat's performance-based certifications are among the most highly regarded in the IT industry. It's success stems from a solid track record of benchmarking and hands-on skills assessment.

A Red Hat Certified System Administrator (RHCSA) certification is earned by passing a hands-on, lab-based exam that covers the core system administration skills required in Red Hat Enterprise Linux environments.

Red Hat Certified Engineer (RHCE) is earned by a Red Hat Certified System Administrator (RHCSA) who has demonstrated the knowledge, skill and ability required of a senior system administrator responsible for Red Hat Enterprise Linux systems.

Learn more about the complete portfolio of Red Hat certifications at **redhat.com/certification**.
