[Red Hat in the News](#)

- **Simple, Open, Affordable Business Automation.** On February 13, 2008, Red Hat announced the Enterprise Acceleration initiative designed to help its enterprise customers accelerate their transitions to a next-generation, open source middleware architecture based on JBoss Enterprise Middleware. Healthcare organizations are deploying service oriented architectures built on JBoss to address interoperability challenges. [Learn more.](#)
- [Forbes](#) recognized Red Hat on its list of the [top 25 fastest-growing technology companies in America](#). Forbes' sixth-annual list includes a broad spectrum of companies from biotech to aerospace, and recognizes seven software-related companies. Red Hat made the list this year for the first time and was ranked eleventh overall. Other top names in technology on the list include Google, ranked first overall, and Salesforce.com.
