

Dear Subscriber:

Happy 2008! The Red Hat® Healthcare Team is excited to share with you our upcoming plans for 2008. Our healthcare solutions portal on redhat.com has been updated.

- Beth Israel Deaconess Medical Center discusses more details about their critical clinical systems, and how Red Hat is providing them with affordable, reliable, secure solutions. [Learn more.](#)
- With the release of many new open source technologies such as virtualization, service-oriented architecture middleware, and messaging, the healthcare team summarizes all of Red Hat's solutions and how they are being used in healthcare. [Download it here.](#)
- [The HIMSS08 Annual Conference & Exhibition](#) will provide you with usable knowledge on leading edge topics in healthcare IT and management systems through the over 200 education sessions available for you to attend. Stop by the Red Hat booth (#4771) and learn more about the Red Hat solutions for healthcare.
- Through February, Healthcare customers receive a 10% discount on training. For more details, see below.
