

GNUPro™ 03r1 UPDATED FOR IMPROVED ENTERPRISE LINUX V.3 COMPATIBILITY

Red Hat Global Engineering Services Announcement Letter
2004-01-08

OVERVIEW

Red Hat's GNUPro 03r1-2 toolsuite for HPUX, Solaris and Windows development provides:

- Easy-to-install versions of the full suite of industry-standard GNU cross development tools and libraries for native platform software development
- Tools compatibility with the Red Hat Enterprise Linux v.3 platform's system tools, to ease migration from HPUX, Solaris and Windows to Red Hat Enterprise Linux
- GNUPro documentation, including a "Getting Started" guide and tutorials
- Fast, knowledgeable support through direct access with our world-class support experts

This new release includes bug fixes and enhancements migrated from the Red Hat Enterprise Linux v.3 system tools.

DESCRIPTION

GNUPro, recognized as the world's most popular embedded development tools suite, is a collection of tools and runtime technologies that enables the creation, deployment, and testing of target software components for devices.

The core of the GNUPro toolsuite includes specially configured, built, tested, and supported versions of the GNU development tools:

- GCC version 3.2.3
- GDB version 5.3.90_2003-06-27 (snapshot)
- Insight, the graphical debugger interface, version 5.3.90_2003-06-27 (snapshot)
- GNU binutils version 2.13

Additional GNUPro enhancements to the core GNU utilities include processor-specific optimizations, and bug fixes backported from the very latest development sources for these tools.

GNUPro

The following tools configurations are supported:

Configuration	Description
sparc-sun-solaris2.6	Native 32-bit Solaris 2.6 tools for sparc platforms.
sparc-sun-solaris2.7	Native 32-bit Solaris 7 tools for sparc platforms.
sparc-sun-solaris2.8	Native 32-bit Solaris 8 tools for sparc platforms.
sparc-sun-solaris2.9	Native 32-bit Solaris 9 tools for sparc platforms.
sparc64-sun-solaris2.7	Native 64-bit Solaris 7 tools for sparc platforms.
sparc64-sun-solaris2.8	Native 64-bit Solaris 8 tools for sparc platforms.
sparc64-sun-solaris2.9	Native 64-bit Solaris 9 tools for sparc platforms.
hppa1.1-hp-hpux10.20	Native 32-bit HPUX 10.20 tools
hppa1.1-hp-hpux11.00	Native 32-bit HPUX 11 tools
i686-pc-cygwin	Native cygwin tools for Windows 2000 and XP.

AVAILABILITY

GNUPro 03r1-2 support offerings are available immediately.

Custom configurations for cross compiling between different platforms or OS versions are also available upon request.
