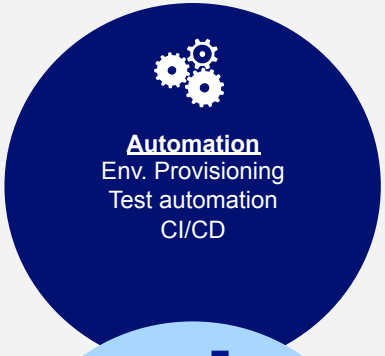
Where we started

Our guiding principles

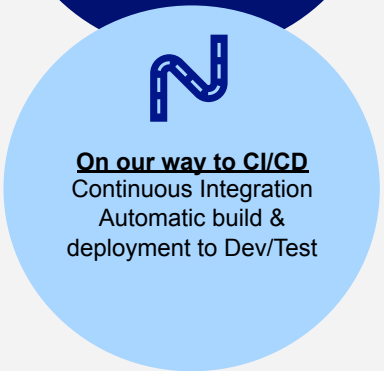


Automation
Env. Provisioning
Test automation
CI/CD

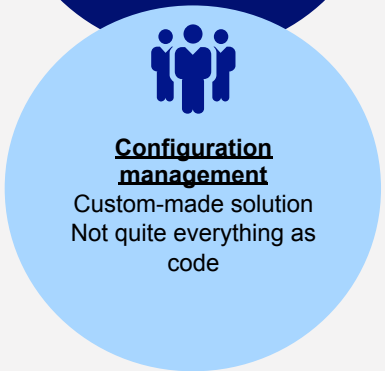
Everything as code
Env. Configuration
Delivery pipeline

Short Feedback Loops
For developers & testers
Fail fast
Learn Quick

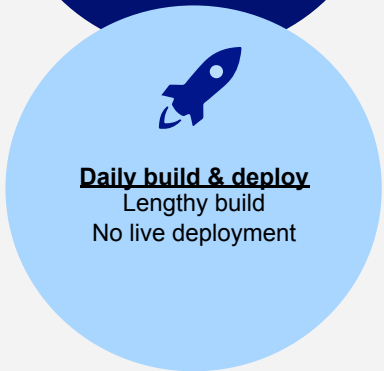
Our situation B.C.



On our way to CI/CD
Continuous Integration
Automatic build & deployment to Dev/Test



Configuration management
Custom-made solution
Not quite everything as code



Daily build & deploy
Lengthy build
No live deployment

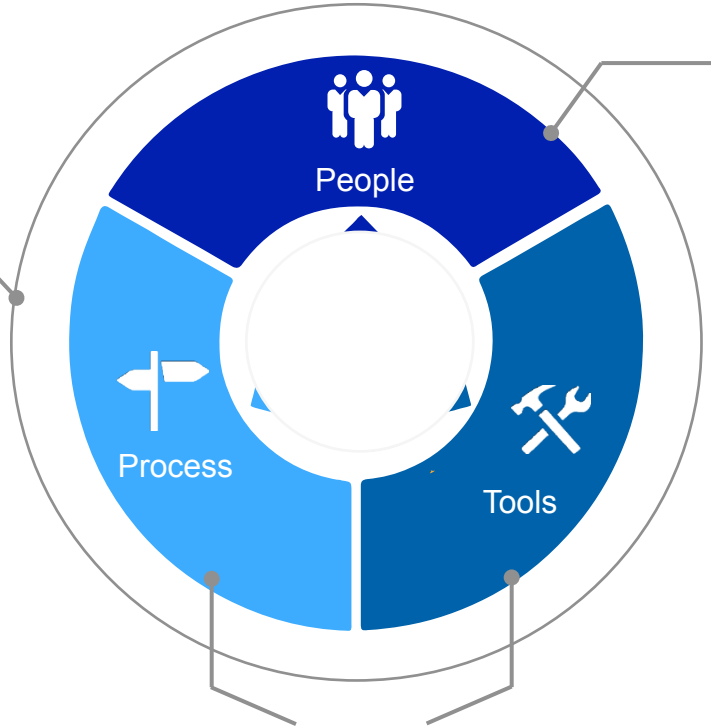
Something to think about



Management of Expectations
When is your new platform/tool ready to be released?

How to balance?
People, Processes, and Tools

Exploring/Experimenting with new solutions / tools / platforms
