HEALTHCARE INDUSTRY

SOFTWARE AND SERVICES

Red Hat® JBoss® Fuse

Red Hat JBoss
Operations Network

Red Hat Enterprise Linux®

Red Hat Consulting

CHALLENGE

- Migrate from outdated infrastructure and legacy Java™ Composite Application Platform Suite (JCAPS) technology to a more flexible, simpler solution
- Improve time to market with a modular solution that reuses code and eliminates point-to-point connectivity between applications

SOLUTION

- Implemented Red Hat JBoss Fuse to connect critical healthcare systems on Red Hat Enterprise Linux and IBM AIX servers
- Engaged Red Hat Consulting for help creating and migrating environment

BENEFITS

- Improved time to market by reusing code for creating new applications
- Reduced IT total cost of ownership (TCO), including development and management costs
- Gained flexibility by eliminating vendor lock-in

“[Red Hat JBoss] Fuse is the backbone for all of our messaging and service-oriented architecture needs. It’s the highway that’s connecting everything.”

ASIF SAJJAD
