

SIA IMPROVES SPEED AND COSTS WITH RED HAT JBOSS MIDDLEWARE

www.sia.eu/en

FINANCIAL SERVICES

SOFTWARE AND SERVICES

Red Hat® JBoss® BPM Suite

Red Hat JBoss Fuse

Red Hat JBoss Enterprise
Application Platform (EAP)

PARTNER

Extra S.r.l.

CHALLENGE

- Develop an automated, flexible prebilling system to collect data from various legacy systems and apply business rules to calculate client bills
- Move legacy systems to open source, including more than 100 mechanisms for collecting and storing billing data

SOLUTION

- Deployed Red Hat JBoss Fuse to collect and store transaction data
- Implemented Red Hat JBoss BPM Suite to manage business rules and related governance workflows
- Migrated to a web application that uses Red Hat JBoss EAP for custom user interfaces to manage rule editing and versioning

BENEFITS

- Improved costs and efficiency by moving rules management from developers to business units with Red Hat JBoss BPM Suite
- Reduced development time for prebilling data streams from new and existing services
- Integrated new prebilling application with monitoring system and procedures using Red Hat JBoss Fuse

"SIA is undergoing a major shift from legacy technology to open source, but we are meeting this challenge head-on thanks to Red Hat solutions and Red Hat Advanced Business Partner, Extra S.r.l."
