<b>HARDWARE</b>	<ul style="list-style-type: none"> <li>• Hitachi servers with Intel processors</li> </ul>	<ul style="list-style-type: none"> <li>• x86 servers with Intel processors</li> </ul>	<ul style="list-style-type: none"> <li>• x86 servers with Intel processors</li> </ul>
<b>SUCCESS SUMMARY</b>	Raiffeisenbank needed to replace its aging hardware and operating system that supported its data warehouse. By migrating to Red Hat Enterprise Linux, the bank tripled system performance and maintained stability—while cutting total cost of ownership (TCO) by 50%.	Intermountain Healthcare wanted to replace its proprietary systems with a modern, open source infrastructure. With Red Hat solutions, the healthcare system offers IT automation and on-demand services, enabling productivity while decreasing complexity.	To support application modernization and automation, the State of Jalisco deployed Red Hat solutions. IT teams can now create innovative, digital services faster and meet peak traffic demand—at lower cost.
<b>BENEFITS</b>	<ul style="list-style-type: none"> <li>• Achieved three times faster system performance</li> <li>• Anticipates 50% decrease in TCO over five years</li> <li>• Gained greater flexibility by eliminating vendor lock-in</li> </ul>	<ul style="list-style-type: none"> <li>• Increased stability and performance</li> <li>• Reduced cost and complexity</li> <li>• Gained expertise and knowledge from Red Hat Consulting</li> </ul>	<ul style="list-style-type: none"> <li>• Modernized services for citizens through online access</li> <li>• Reduced IT infrastructure costs by 60%</li> <li>• Improved internal knowledge and development capabilities</li> </ul>
<b>TESTIMONIAL</b>	<p><i>"We feel a combination of Red Hat and Oracle on an Intel platform is a preferred solution for any company."</i></p> <p>- JIŘÍ KOUTNÍK, HEAD OF SYSTEM ADMINISTRATION</p>	<p><i>"After many considerations, an open source environment (such as Red Hat) was the best option to support our needs and help streamline operations and reduce costs."</i></p> <p>- BRET LAWSON, DIRECTOR, INFRASTRUCTURE OPERATIONS</p>	<p><i>"We're faster, more reliable, and confident our releases will work. Red Hat technologies have helped us develop more and better applications in less time."</i></p> <p>- ENG. JOSE ALFONSO FONSECA GARCIA, MANAGING DIRECTOR, INNOVATION AND DIGITAL GOVERNMENT</p>
