

# TTTech reduces time to market and improves efficiency with Red Hat

## TTTech

**Customer name**

TTTech

**Industry**

IT consulting &amp; services

**Software**

Red Hat® Enterprise Linux®  
Red Hat Smart Management  
Red Hat Satellite

With its real-time networking platforms and safety controls, TTTech Group's solutions improve the safety and reliability of electronic systems in the industrial and transportation sectors.

**Challenge**

- Add automation to existing virtualized environment
- Reduce time to market, improve customer experience, and increase productivity

**Solution**

- Automated operating system environment with Red Hat Enterprise Linux and Smart Management
- Adopted Red Hat Satellite as a tool for host provisioning and patch management

**Benefits**

- Gained agility in managing the environment, with deployment time cut from one day to 30 minutes
- Increased efficiency and productivity with centralized management and automation, reducing manual steps and saving staff time
- Accelerated deployment of software to clients, improving their experience—as shown by positive feedback from customers
- Ensured compliance by always rolling out security patches on time

*“The success of this project was essential for the 800 people who work on this environment on a daily basis. The Red Hat solution will enable us to scale up projects faster, and grow our organization more quickly.”*

**Nikolaus Schillinger**

Team Leader Network &amp; Server Team, TTTech
