

# DEVELOPER ADVANCES CAREER WITH RED HAT LEARNING SUBSCRIPTION

**MARVIN CURLEE,  
RED HAT CERTIFIED  
ARCHITECT**

Marvin Curlee, a systems architect and developer, purchased a Red Hat® Learning Subscription to build his skill set and become a Red Hat Certified Architect—and a leader in his organization.

## BENEFITS

### KNOWLEDGE

*“These are thorough courses that teach real-world skills. I use those skills every day in my job. The exams aren’t easy, and if you don’t know what you’re doing you won’t pass. But that’s a good thing. Employers know a Red Hat certification means you have the skills to do the job.”*

RED HAT CERTIFIED ARCHITECT

### COST SAVINGS

*“It’s a huge discount if you purchase a Red Hat Learning Subscription instead of buying the courses separately. It’s a real benefit to have access to all the content for all the courses. But you have to commit and utilize it.”*

RED HAT CERTIFIED ARCHITECT

### CREDENTIALS

*“My first certification helped me get my current position at my job. It showed validity in my skill set. After completing my Red Hat Certified Architect certification, I’m now the go-to person in my organization for DevOps and containerization. That was my goal—to become that point person. Being a Red Hat Certified Architect set me up to be a leader.”*

RED HAT CERTIFIED ARCHITECT

### EFFICIENCY

*“I’m a husband, a parent, and I have a full-time job. I’m always busy. The self-paced learning was perfect for my lifestyle.”*

RED HAT CERTIFIED ARCHITECT

### MARKETABILITY

*“If you have a Red Hat certification, employers know that it’s not just a paper certification. These are lab-based exams. When people see that you’re a Red Hat Certified Architect, they know you have the skills to do the job. It’s the real deal.”*
