

TRAIL MAP

CLOUD-NATIVE APP DEV

Here are some sessions, events, and areas we'd recommend for attendees interested in cloud-native app dev. Just look for the trail map sign at each location and "check in" by tapping your badge to the correct icon.

TUESDAY, MAY 8

10:30 - 11:15 a.m.	● Containers, microservices, serverless: On being serverless or serverful	MOSCONE SOUTH 207
11:45 a.m. - 12:30 p.m.	● Shift security left - and right - in the container life cycle	MOSCONE WEST 2102
3:30 - 5:30 p.m.	● A Java developer's journey to Kubernetes and OpenShift	MOSCONE SOUTH 206
3:30 - 4:15 p.m.	● Introducing OpenShift.io - end-to-end cloud-native development made easy	MOSCONE SOUTH 207
4:30 - 5:15 p.m.	● Low-risk mono to microservices: Istio, Teiid, and Spring Boot	MOSCONE SOUTH 207

WEDNESDAY, MAY 9

11:45 a.m. - 12:30 p.m.	● Reactive data pipelines on OpenShift with Eclipse Vert.x	MOSCONE SOUTH 216
11:45 a.m. - 12:30 p.m.	● What's a service mesh?	MOSCONE SOUTH 208
12:10 - 12:30 p.m.	● The why behind DevOps, containers, and microservices	MOSCONE WEST 2010
3:30 - 4:15 p.m.	● Camel Integration with Spring Boot and Red Hat Fuse on OpenShift	MOSCONE SOUTH 216

THURSDAY, MAY 10

2 - 2:45 p.m.	● Functions-as-a-Service with OpenWhisk and Red Hat OpenShift	MOSCONE SOUTH - 207
---------------	---	---------------------

Consider each of the stops on this trail map a "starting point" for specific topics. If you have particular interest in one (or many) of the stops, you can check out our online agenda for additional suggested sessions related to each of the trail map stops.
