

SOLVING PERSISTENT STORAGE FOR CONTAINERS

CONTAINER-NATIVE STORAGE IS FLEXIBLE, COST EFFECTIVE, AND DEVELOPER FRIENDLY

I DEVELOP MODERN APPS DEPLOYED IN CONTAINERS. MY APPS NEED STORAGE.

OUR STORAGE ADMIN MANAGES A **LARGE STORAGE POOL** AND CARVES OUT STORAGE FOR **ALL ENTERPRISE APPS**.

SHE ALSO PROVIDES STORAGE FOR **LEGACY APPS** ON BARE-METAL AND **VIRTUAL MACHINES**.

OUR ADMIN CAN'T KEEP UP, WHICH SLOWS EVERYTHING DOWN.

WHAT IF I COULD BE IN CONTROL?

WHAT IF I COULD PROVISION AND MANAGE **PERSISTENT STORAGE**?

RED HAT STORAGE IS **SIMPLE**,

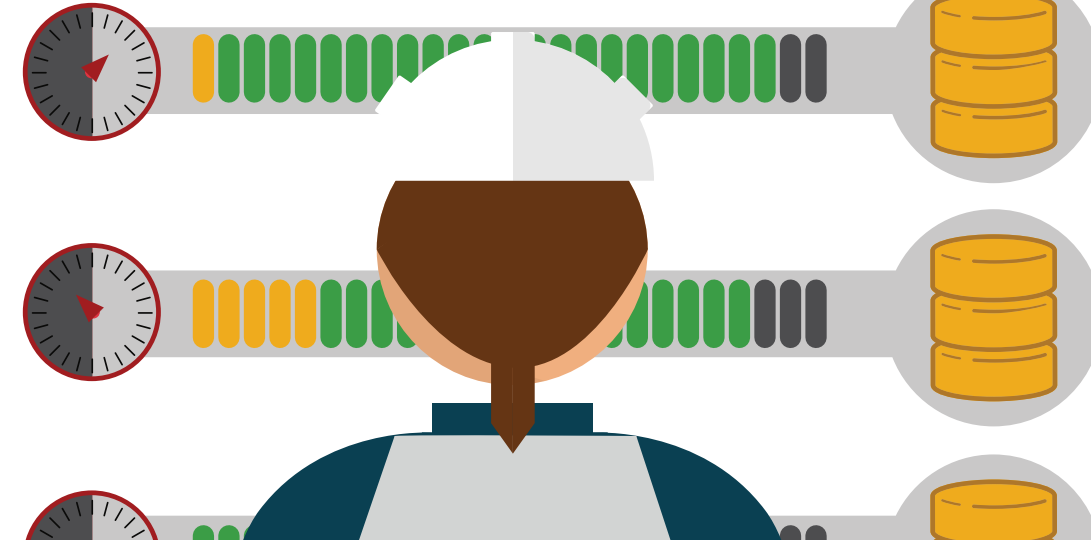

SCALABLE

AND AVAILABLE **EVERYWHERE**.

RED HAT® GLUSTER STORAGE LETS US STANDARDIZE ACROSS MULTIPLE ENVIRONMENTS AND FULLY INTEGRATE WITH RED HAT OPENSIFT CONTAINER PLATFORM.

NOW I CAN FOCUS ON MY CODE (AND NOT WORRY ABOUT STORAGE).

AND OUR ADMIN CAN SCALE OUT - AND KEEP THINGS UNDER CONTROL.

RED HAT REMOVES BARRIERS TO INNOVATION, MAKING IT EASY TO GET PERSISTENT STORAGE FOR CONTAINERS ANYWHERE.

AND USE IT EVERYWHERE.
