TECHNOLOGY STACK

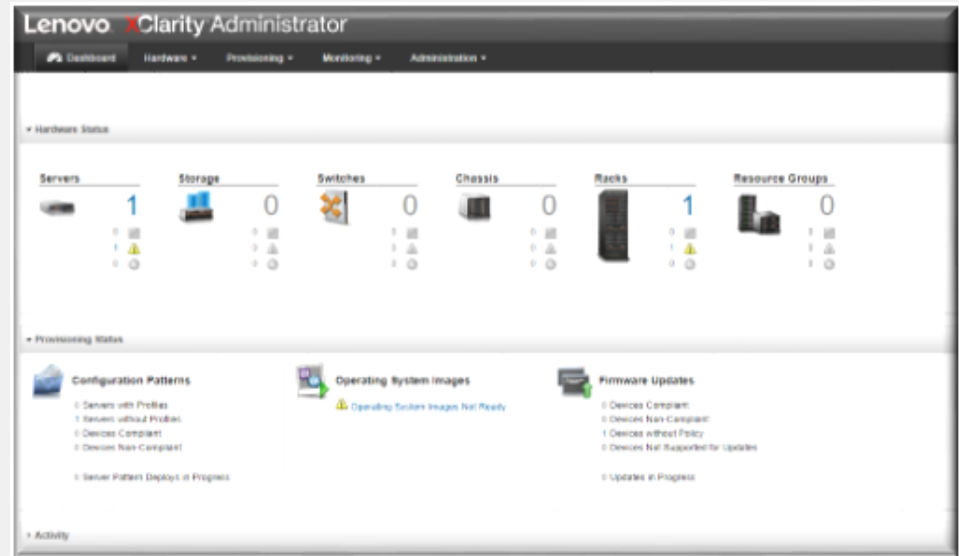

Lenovo XClarity Administrator

XClarity Administrator is a centralized hardware management solution for Lenovo server systems and solutions.

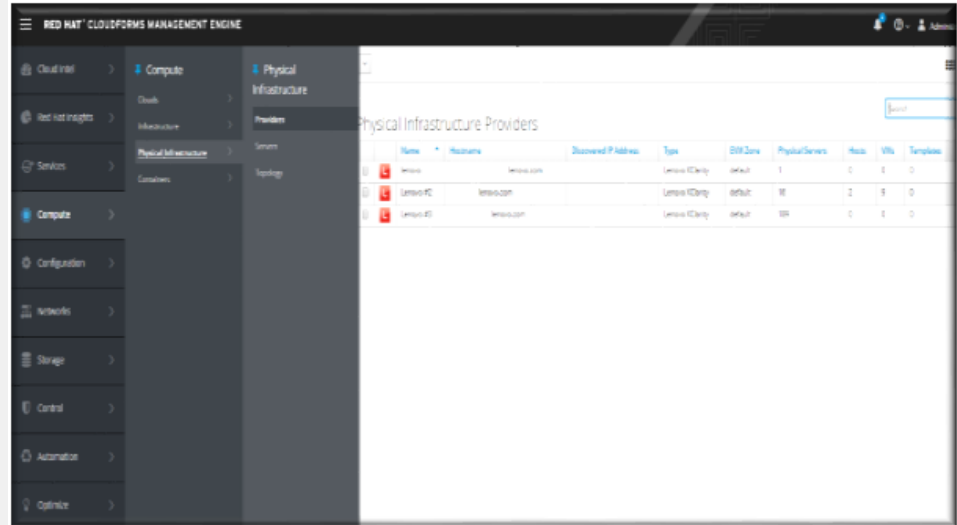

- **Simplify** – Find the right information and accomplish critical tasks faster. Remove complexity from IT infrastructure
- **Accelerate** – Automate and scale IT infrastructure to reduce to time to market of new systems.
- **Integrate** – Deploy and manage Lenovo infrastructure from your own IT applications by developing custom integration

Lenovo Physical Infrastructure Provider

Red Hat CloudForms 4.6 introduces Lenovo XClarity as the first physical infrastructure provider, enabling CloudForms to go beyond hybrid cloud management and manage hybrid infrastructure.

- **Discover and manage** physical compute infrastructure alongside virtual and multi-cloud through a single pane of glass.
- **Determine capacity** for on-premise resources
- **Analyze impacts** of infrastructure modifications on workload and control infrastructure maintenance.
