# MAKING LEGACY NEW AGAIN

A Migration Story

Mustafa Musaji  
@mustafamusaji  
UK&I Solution Architect  
April 2018

In 1999, a crack commando unit was assigned to build a business application they didn't want. These coders promptly left the app in a maximum-security datacenter never to be touched again. Today, still needed by the business, the application barely survives with the modern architecture used in businesses and needs to be updated. If you have an application migration problem... if no one else can help... and, if you can't find the original coders... maybe you can use The Red Hat Application Migration Toolkit.

In this session, we'll discuss the benefits of migrating and modernizing legacy applications and how Red Hat can help with the tools and methodologies we've used successfully in large-scale migrations. If you need to migrate or update applications, this is the talk for you.

APPLICATION MODERNIZATION:

# WHY CHANGE?

# SUCCEEDING AT DIGITAL TRANSFORMATION

EFFICIENCY

AGILITY

SPEED

OPTIMIZE THE IT  
YOU HAVE

INTEGRATE APPS, DATA,  
AND PROCESSES

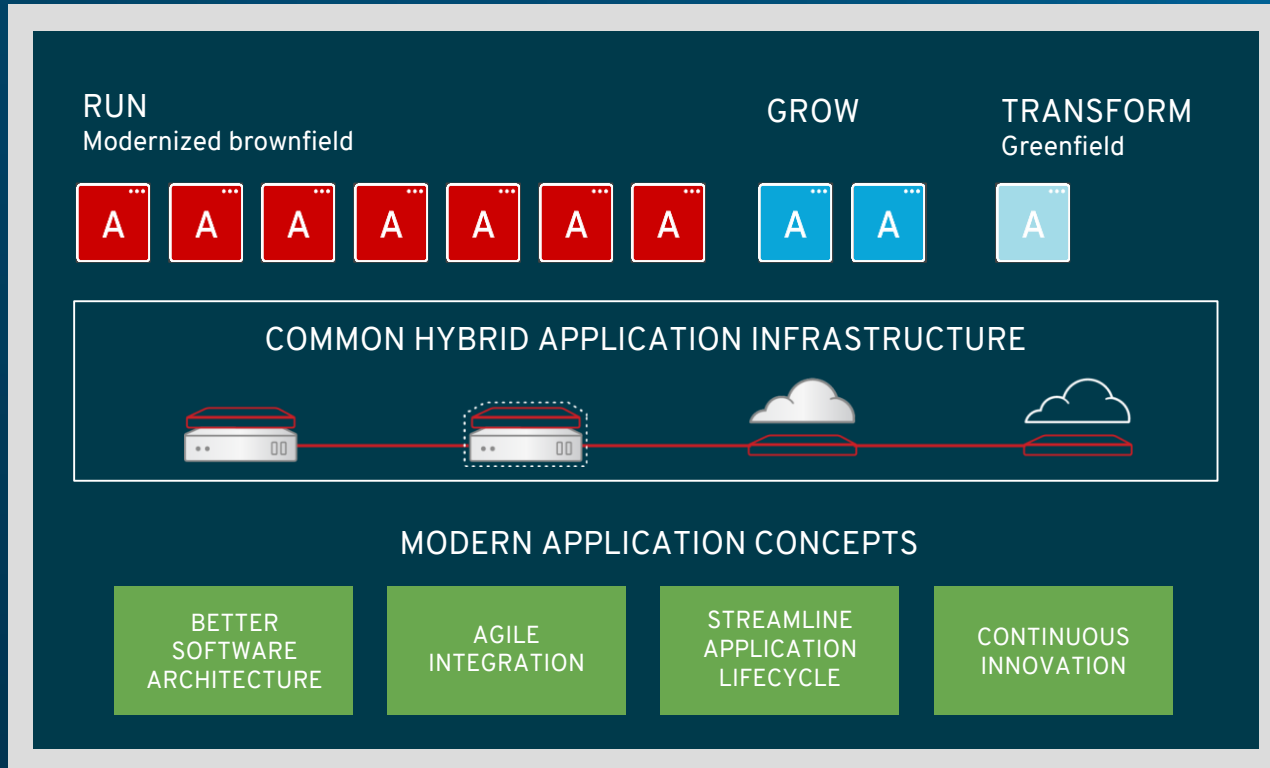

ADD & MANAGE CLOUD  
INFRASTRUCTURE

BUILD MORE MODERN  
APPLICATIONS

# APPLICATION PORTFOLIO MODERNIZATION

APPLICATION MODERNIZATION & MIGRATION:

# RED HAT'S APPROACH, METHODOLOGY AND TOOLING

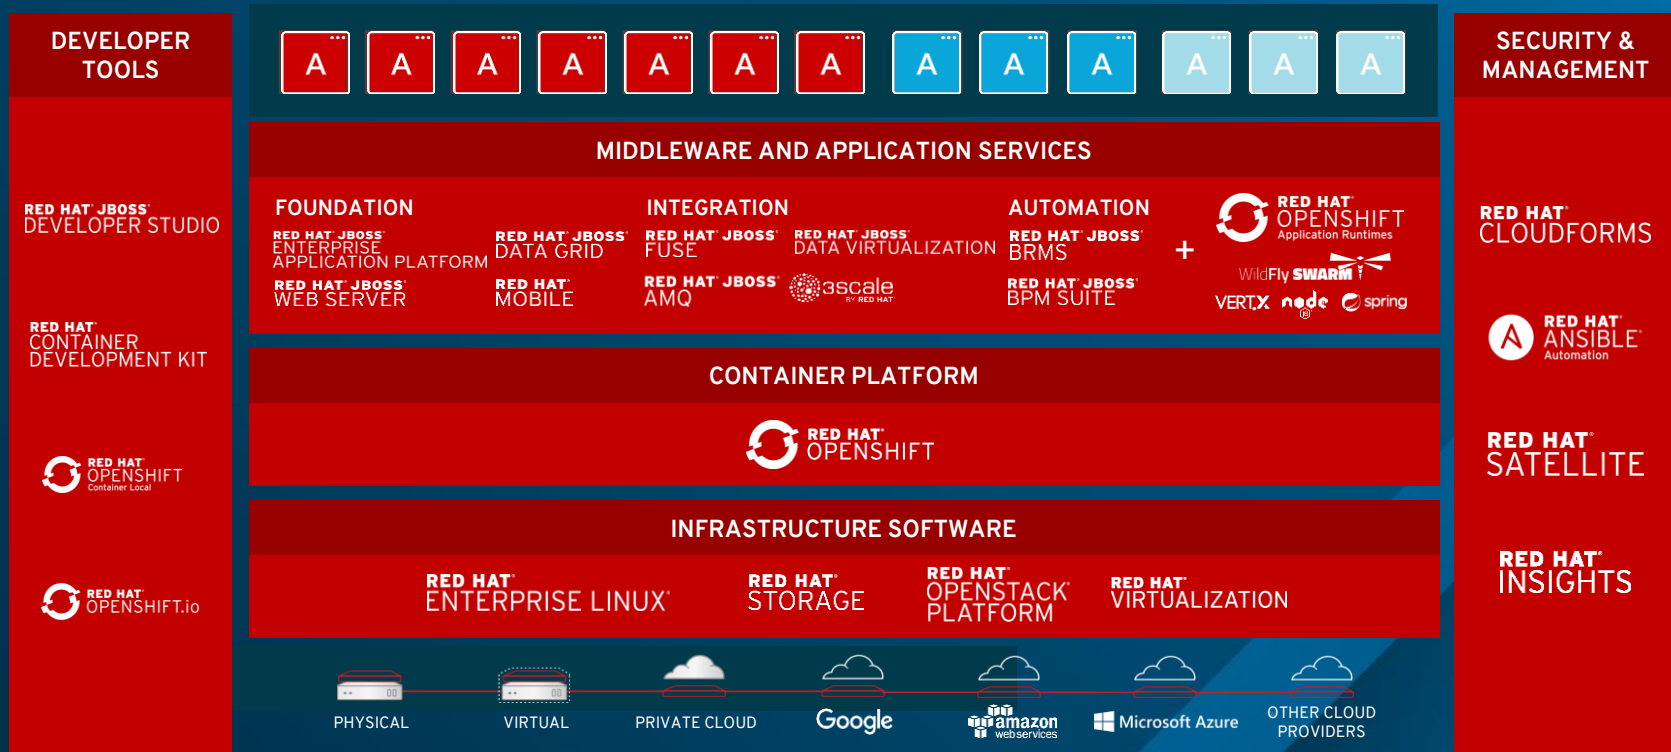

I have  
the plan

Red Hat can provide  
the most  
comprehensive set  
of open source  
technologies to  
target

# IT'S ALL THERE!

## COMPLETE TECHNOLOGY STACK FOR HYBRID CLOUD

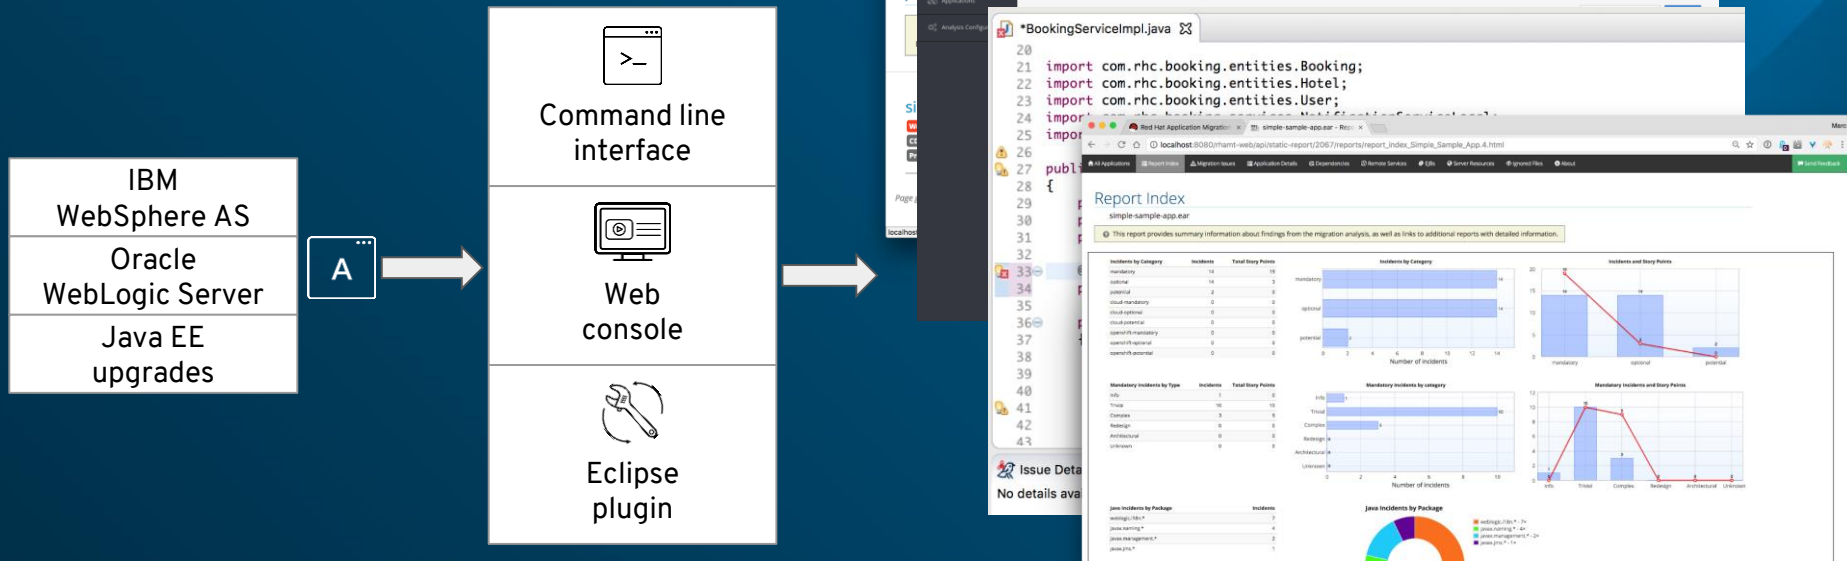

I have the  
tools and  
people

Red Hat can provide  
the tools and  
services

# RED HAT® APPLICATION MIGRATION TOOLKIT

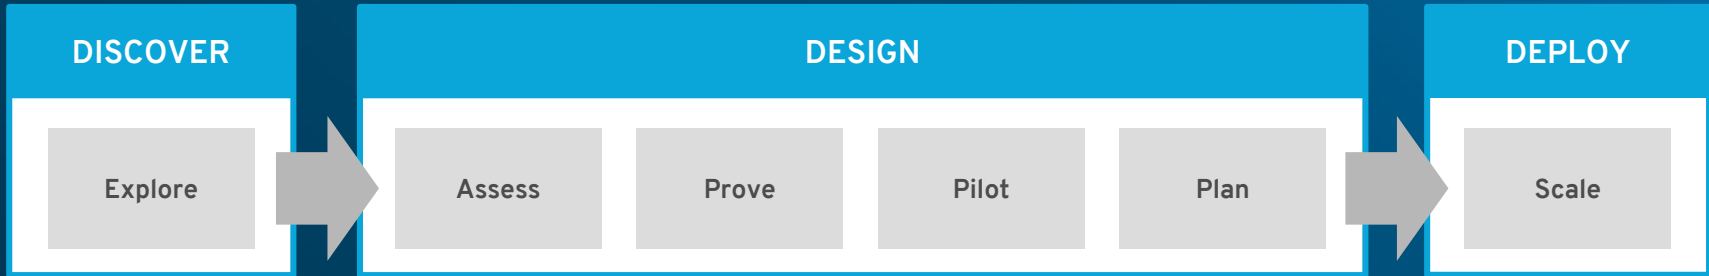

I know  
what I'm  
good at

Red Hat has the  
knowledge,  
experience, and a  
proven  
methodology to  
tackle large scale  
migrations

# METHODOLOGY

Iterative, managed service, factory scale up.

- Standard, proven, modular, repeatable, pragmatic methodology
- Step by step, low risk and highly efficient: no “big bang”
- Scale up with partners or client’s staff

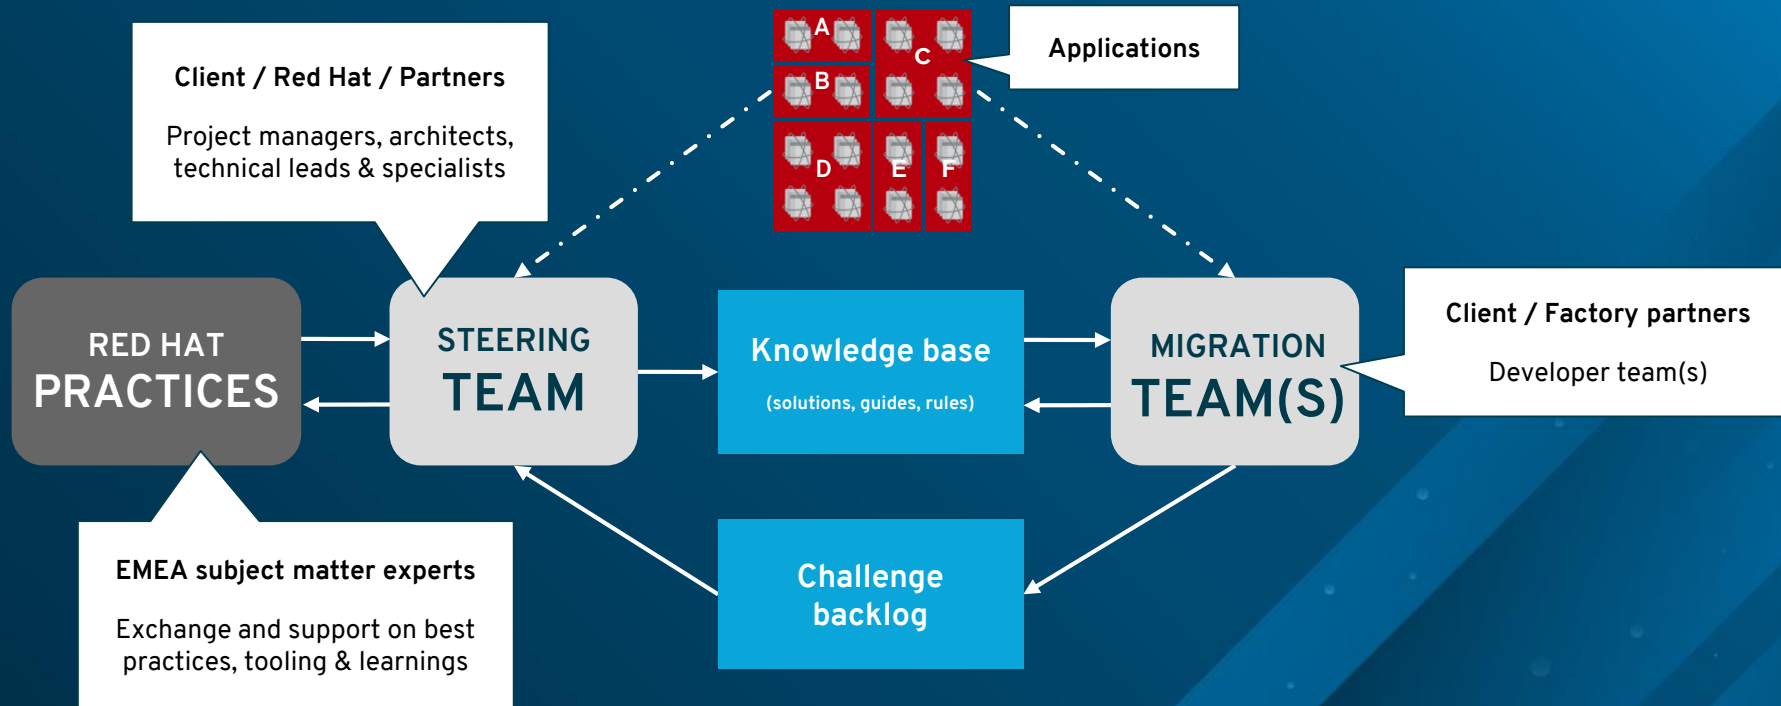

I have the  
skills

Red Hat can help  
pull teams together  
with the right skills

# FACTORY DELIVERY MODEL

Project team structure & collaboration strategy

# NEXT STEPS

## Want to find out what it means to YOUR organization?

- Contact Red Hat or one of our certified application modernization & migration partners
- Speak to a modernization & migration expert
- Schedule a discovery session

## Are you a systems integrator?

- There is an application modernization & migration specialization in our partner program
- We continue to add to our network of migration factory service partners
- Contact your Red Hat partner representative for details
