# PASSING THE 'STINK' TEST

Making digital transformation more palatable to engineers

**Allison Matlack**

Manager, Products and Technologies Communications

May 2019

# DIGITAL TRANSFORMATION + LEADERSHIP

# WHAT IS DIGITAL TRANSFORMATION?

Digital transformation is the integration of digital technology into all areas of a business, ***fundamentally changing how you operate and deliver value to customers.*** It's also a cultural change that requires organizations to continually challenge the status quo, experiment, and get comfortable with failure.

# FROM THE INCUMBENT'S POSITION

WHAT HAPPENS WHEN YOU RECOGNIZE DISRUPTION TOO LATE?

# DIGITAL LEADERS ARE HIGH PERFORMERS

I.T. THROUGHPUT MEANS MOVING QUICKLY TO ANSWER DEMAND

High-performing organizations deploy code

**46x**

more frequently than low-performing ones

# TAKE A DEVOPS APPROACH

BIG BENEFITS, SMALL STEPS

## TRADITIONAL

## CULTURE OF INNOVATION

### AGILITY

### SPEED TO VALUE

### DEV LIFE CYCLE

### PEOPLE NEEDED

### INFRASTRUCTURE COST

### RISK

## DEVOPS

LET'S DEVOPS ALL THE THINGS!!1!

# THE 'STINK' TEST

I <3 ENGINEERS

SO WHAT DO WE DO, ALLISON??

# HOW TO PASS THE 'STINK' TEST

1. **Have empathy** because change fatigue is real
2. **Be pragmatic** because engineers take things literally
3. **Build trust** because we're all on the same team

# 1. CHANGE FATIGUE IS REAL: HAVE EMPATHY

# AGILE MANIFESTO

**Following a plan**

# CHANGE FATIGUE

# CHANGE FATIGUE

# THE PUFFERFISH EFFECT

# HAVE EMPATHY

## 2. ENGINEERS TAKE THINGS LITERALLY: BE PRAGMATIC

# HOW TO TALK TO ENGINEERS

AKA HOW TO AVOID PUFFING THE PUFFERFISH

- Be transparent about what you know – and what you don't
- Avoid absolutes
- Only claim “open” if you're actually being open
- Make sure people know they have been heard
- Group related changes together whenever possible
- Assume people will take you literally

# AUTHENTIC AGILE + DEVOPS TRANSFORMATION

- Talk with and observe real users who interact with your product (Frequently!)
- Build automation and quality into the process – not siloed
- Ensure people are empowered to make change
- Introduce new tools only when required – not desired
- Change what's not working

# 3. PRIORITIZE THE SAME THINGS: BUILD TRUST

# SHARED VISION + GOALS

# TO THE LEFT, TO THE LEFT?

LET'S GO!

# HOW TO PASS THE 'STINK' TEST

1. **Have empathy** – try not to puff the pufferfish!
2. **Be pragmatic** – talk about transformation in literal ways
3. **Build trust** – make sure everyone agrees on priorities

# HEAR A REAL-LIFE EXAMPLE

**Just-in-time transformation**

## **Just-in-time transformation: How Red Hat modernized Red Hat Enterprise Linux 8 beta design, process, and culture**

Day/Time: Wednesday, May 8, 11:30 a.m.-12:15 p.m.

Speaker(s): [Brendan Conoboy](#), Red Hat, Inc; Jen Krieger

Session type: Breakout

**Abstract:** In the spring of 2015, the Red Hat Enterprise Linux team started the journey towards the next release. With over 1,200 people working on the operating system and over 2 years since the last major release, the Red Hat Enterprise Linux 8 leadership team realized that they could no longer rely on methods of the past. They launched a 3-year effort to completely revamp and revitalize the way the division delivers its software—all while recognizing our main release themes weren't even technically possible in the beginning.
