"Lots of companies don’t succeed over time. What do they fundamentally do wrong?

They usually miss the future.

I try to focus on that: What is the future really going to be? And how do we create it? And how do we power our organization to really focus on that and really drive it at a high rate?

80% of organisational transformations are unsuccessful
Transformation that have failed
73% of organizations use cloud.

Only 10% of workloads moved.

80% moved some app/data back on-prem.

% public cloud mandated?
% workloads remain on-prem?
% moved back workloads?

***IDC Cloud and AI adoption survey, 2018 (N=400 IT decision makers)

How is this going?
Big no longer beats Small...

... Fast beats Slow.
BUT
It’s not that we have a short time to live, but that we waste a lot of it.

Seneca the Younger
Companies and departments are re-inventing the wheels
Skilled engineering talent in most countries is in short supply!

Should enterprise’s build and support platforms?

Should enterprise’s consume platforms and transform their business?

50% of large businesses in the UK report difficulty recruiting*

* ManpowerGroup 2018 Talent Shortage Survey
To remain competitive and excel in the market, organisations must ACCELERATE

- **Delivery** to delight their customers
- **Engagement** to understand demands
- **Anticipation** of change
- **Response** to risks

to drive

- **Profitability**
- **Market Share**
- **Productivity**

“High performing organisations are consistently *twice as likely* to exceed these goals as low performers.”
