Red Hat Summit & AnsibleFest 2024

Here's why you should attend the premier enterprise open source event

Unlock what's next in enterprise tech

With enterprise technology becoming increasingly complex, being at the forefront of change is crucial. Join us for Red Hat® Summit on **May 6-9, 2024**, to build new skills, challenge cloud complexity, and unlock the outcomes you and your organization need.

Who attends?

Thousands of IT professionals, customers, and partners of all technical disciplines and skill levels. Collaborate with your peers and learn from industry leaders, community members, and contributors—including resident Red Hatters.

Explore Denver

We're moving to a new location: Denver, Colorado. While there, be sure to explore the city in your free time, enjoy a delicious meal, and create new memories. Visit denver.org/welcome/summit24/ for a few ideas.

Gain insights you'll actually use

What you explore is up to you. Uncover inspiration through keynotes that'll re-energize your teams. Learn about emerging technologies like artificial intelligence. Find like-minded professionals for lasting connections.

Activities & offerings:

- Keynote sessions, with AnsibleFest-specific programming
- Expo hall
- Power Training & labs
- Lightning talks & breakout sessions
- Panels & roundtable discussions
- Networking & receptions
- Additional programming for partners, analysts/press, & executives*

Justify your trip

You know how attending Red Hat Summit and AnsibleFest benefits your organization; use this letter to convince your boss, too. Just be sure to customize it before you hit send.
