

# The CIO's Alternative

Red Hat is the world's leading provider of enterprise open source software solutions and services, using a community-powered approach to deliver reliable and high-performing Linux®, hybrid cloud, container, and Kubernetes technologies. Red Hat helps customers develop cloud-native applications, integrate existing and new IT, and automate, secure, and manage complex environments. Traditional, proprietary software development models cannot match this efficient, rapid, customer-focused model.

## Doing business with today's IT vendors

	 	
Purchase process	Complex purchasing scenarios	Flexible, simple purchasing process
Maintenance	Complicated support and maintenance products	Unlimited support, including updates, upgrades, and maintenance
Adoption strategy	High cost of entry and exit (lock-in)	Low cost of entry and exit (portability)
