# Mohegan streamlines IT management with Red Hat Ansible Automation Platform

## Mohegan Gaming & Entertainment

**Media & entertainment, Hospitality**

**Software**

Red Hat® Ansible® Automation Platform

**Partner**

axcelinno.io

Mohegan Gaming & Entertainment (MGE) is a developer and operator of casinos and resorts throughout North America and the owner of several professional sports teams.

### Challenge

▸ Improve project time to market and integration between resorts and business units

▸ Simplify IT infrastructure management to free resources for adopting new, strategic technologies

### Solution

Using Axcelinno Rapid Start for Red Hat Ansible Automation Platform, MGE connected its VMware solutions, databases, and software platforms and automated its Domain Name System/Dynamic Host Configuration Protocol (DNS/DHCP) provisioning processes.

### Benefits

▸ Reduced deployment time of complex network and server configuration changes from weeks to hours and load balancing setup for new resorts to just one day

▸ Streamlined continuous integration and continuous delivery (CI/CD) pipeline

▸ Established standard foundation for future automation of IBM WebSphere, Mulesoft, Microsoft .NET, and other technology

"Red Hat Ansible Automation Platform has helped us solve a common problem. We're now able to do more with less."
