

China's IT education institutes improve student skills with Red Hat Academy

Company	Guangdong Communication Polytechnic	Tianjin Institute of Software Engineering	Sanmenxia Polytechnic
Geography	Guangzhou, China	Tianjin, China	Sanmenxia, China
Success summary	To improve the professional skills of students, Guangdong Communication Polytechnic worked with Red Hat® Academy to integrate Red Hat Certified System Administrator (RHCSA®) and Red Hat Certified Engineer (RHCE®) certifications into its Linux curriculum. Students can now focus on building specific IT knowledge and skills to improve their employment opportunities.	As one of the top providers of software engineering education in China, Tianjin Institute of Software Engineering is devoted to developing software talent with innovative education. It works with Red Hat Academy to offer Red Hat courses on cloud computing, creating new opportunities for students who want to support and develop cloud technologies.	Sanmenxia Polytechnic chose to add Red Hat Training curricula to five of its educational streams through Red Hat Academy. Offering hands-on training on cloud computing and related open source technologies has helped increase student interest in training and certification, as well as their employment opportunities in a highly competitive market.
Benefits	<ul style="list-style-type: none"> Expanded hands-on open source IT training and certification opportunities Helped 139 students achieve RHCSA and 68 students achieve RHCE Increased number of students working as system operations engineers and related roles by more than 30 	<ul style="list-style-type: none"> Helped 35 students achieve Red Hat Certified Architect (RHCA), more than 100 students achieve RHCE, and more than 300 students achieve RHCSA Reported employment of more than 800 students in cloud computing roles Sent two teams to Red Hat APAC Challenge 2015 finals 	<ul style="list-style-type: none"> Achieved RHCE certification course attendance of more than 100 students annually Helped more than 750 students achieve RHCSA certification since 2016 Resulted in more than 400 students joining 2018 Red Hat Academy China Challenge experience
Testimonial	<p><i>"Red Hat Academy provided a complete educational solution, including a virtual lab environment, content, guest lectures, and the Red Hat Academy China Challenge experience. All of these help our students learn, achieve certification, and become more employable."</i></p> <p>- Junxian Huang Vice Dean, Guangdong Communication Polytechnic</p>	<p><i>"The high employment rate among the institute's students was in part achieved with excellent cloud computing content and learning platform support provided by Red Hat Academy."</i></p> <p>- Mingqin Chen Director, Teaching and Training Center, Tianjin Institute of Software Engineering</p>	<p><i>"Red Hat Academy helps us meet industry demand aligned with the trend of digital transformation, which requires more open source technology knowledge and certified professionals."</i></p> <p>- Lei Qian Head of Information Security and Cloud Computing, Media Major, Institute of Sanmenxia Polytechnic</p>
