

# AGILE TRANSFORMATION WITH RED HAT OPENSIFT

TESTIMONIAL SNAPSHOT

## PAYCHEX

Fastest-growing infrastructure platform, responsible for moving hundreds of billions of dollars in annual revenue

*"Our development teams using Red Hat® OpenShift® have, on average, three or four times more product deployments, equating to more features launching to our end users faster."*  
DAVE WILSON, SENIOR DIRECTOR OF INFRASTRUCTURE AND ARCHITECTURE

Support for agile continuous delivery (CD) approach

*"OpenShift is the platform where we're blurring the lines between IT operations and development. Through self service, we've enabled our developers to deliver their applications or services as continuously as possible, taking advantage of the tests and images that the infrastructure team has created."*  
STEVE BELL, SENIOR MANAGER, ENTERPRISE ARCHITECTURE

Future-ready cloud environment across 3 datacenters in 2 regions

*"As we continue to redesign our software and update our infrastructure, there's always a cloud-first, cloud-ready strategy. OpenShift is the framework to get our services on that new cloud architecture. We're now talking about using it for our customer-facing applications, web services, and user interfaces, for any project."*  
STEVE BELL, SENIOR MANAGER, ENTERPRISE ARCHITECTURE

7 upgrades to live applications in 1.5 years with zero downtime

*"We have to use platforms like OpenShift to innovate and stay ahead of our competition with our advantages of size and scale. When I think about the OpenShift platform, we know we have the ability to provide a highly available environment, not only through the software development life cycle, but ultimately to production."*  
MICK WHITTEMORE, VICE PRESIDENT, ENTERPRISE I.T. OPERATIONS

Flexible collaboration and integration

*"Whether its partnerships with accounting platform providers to our general ledger product or point of sale systems integrating with our payroll platform, OpenShift enables us to deliver solutions more quickly to our clients."*  
DAVE WILSON, SENIOR DIRECTOR OF INFRASTRUCTURE AND ARCHITECTURE
