

Red Hat Learning Subscription Premium

Empower teams with interactive learning and on-demand training options

A recent IDC study found that participating in Red Hat training courses can deliver a number of benefits, including:¹

- A projected three-year return on investment (ROI) of 365%.
- 44% higher DevOps team productivity on average.
- 59% faster IT resources deployment on average.
- IT infrastructure teams that are 34% more efficient on average.
- When Red Hat training is completed prior to onboarding, new hires may be ready for their jobs on an average of 76% faster.

Keep pace with technology

As the pace of technology development continues to speed up, teams need timely, focused software training. Demand for skills in areas such as hybrid cloud and container native development continues to grow. Modern teams need up-to-date technical content with the flexibility of both synchronous and asynchronous training offerings to suit learning preferences and schedules.

Sharpen skills with flexible learning

Red Hat Learning Subscription Premium provides a customizable learning experience with self-paced and live training options. Users can tailor their learning with recorded video classes, e-books, online content, and live virtual classes. A subscription provides access to content across the entire Red Hat product portfolio, which is continuously updated. Live, instructor-led classes create an engaging, immersive learning experience. These interactive sessions compliment the on-demand, self-paced learning materials available with a Red Hat Learning Subscription for highly effective, flexible training for everyone from beginners to experienced professionals.

The benefits of a Premium subscription are:

- **Live, instructor-led virtual classes:** Benefit from an interactive classroom with added flexibility and convenience.
- **Access to Red Hat certified instructors:** Virtual classes are taught by the same experienced subject matter experts who lead classroom trainings.
- **Flexible scheduling options:** Various class topic and time options fit learning into busy schedules and preferences.
- **Focused training sessions:** Participants can narrow their learning to more specific topic areas.
- **Choice of learning modality:** Combination of self-paced materials and expert-taught classes maximize learning.
- **Train without traveling:** Learn when, where, and how works best for you.

The Business Value of
Red Hat Training Courses,
December 2020

Feature	Description
24x7 self-paced access to more than 60 courses	Content is created by Red Hat experts who build and use Red Hat technology and is directly related to Red Hat certification exams.
Early access	Be the first to explore in-development technology before it is officially released by accessing courses and labs in development.
400 hours of cloud-based labs	Get hands-on practice in authentic Red Hat environments, delivered 24x7 on six continents.
Skills paths	Map your learning and certification goals to one of the skills paths inside the platform to develop a strong foundation for a specific skill set.
Five certification exams and two retakes	Validate your skills through performance-based exams remotely or at a testing station. Exams can be taken when and where it is most convenient.
Expert extras	Red Hat field practitioners present short demo videos to supplement courses by showing innovative technologies and practices based on real-world use cases.
Expert chat	Get direct answers and guidance from curriculum experts via a 30-minute chat session per day. Machine translations provide chat dialogue in local languages.
10 e-book downloads	Download course e-books to continue learning offline.
Reporting	An individual’s dashboard provides a summary of training progress, courses and labs taken, and exam status. Management reports provide insights so team engagement and progress can be measured.
Globally available, translated content	Access Red Hat’s most popular courses in as many as 11 languages: English, International Spanish, Brazilian Portuguese, French, Italian, German, Simplified Chinese, Korean, and Japanese, Hindi, and Czech.*

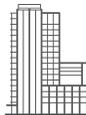

* Course translations depend on training modality and course demand.

Get started

Red Hat Learning Subscription Premium is the complete solution to create the learning experience that best fits you: live-taught classes that fit into your schedule, on-demand training available anytime, extra access to instructors for guidance, and additional resources to support your learning.

Visit the Red Hat Learning Subscription product page: red.ht/learning-subscription, or contact your sales representative to learn more about getting started.

About Red Hat

Red Hat is the world's leading provider of enterprise open source software solutions, using a community-powered approach to deliver reliable and high-performing Linux, hybrid cloud, container, and Kubernetes technologies. Red Hat helps customers integrate new and existing IT applications, develop cloud-native applications, standardize on our industry-leading operating system, and automate, secure, and manage complex environments. Award-winning support, training, and consulting services make Red Hat a trusted adviser to the Fortune 500. As a strategic partner to cloud providers, system integrators, application vendors, customers, and open source communities, Red Hat can help organizations prepare for the digital future.
