

# Red Hat training units

Protect your investment in Red Hat technologies

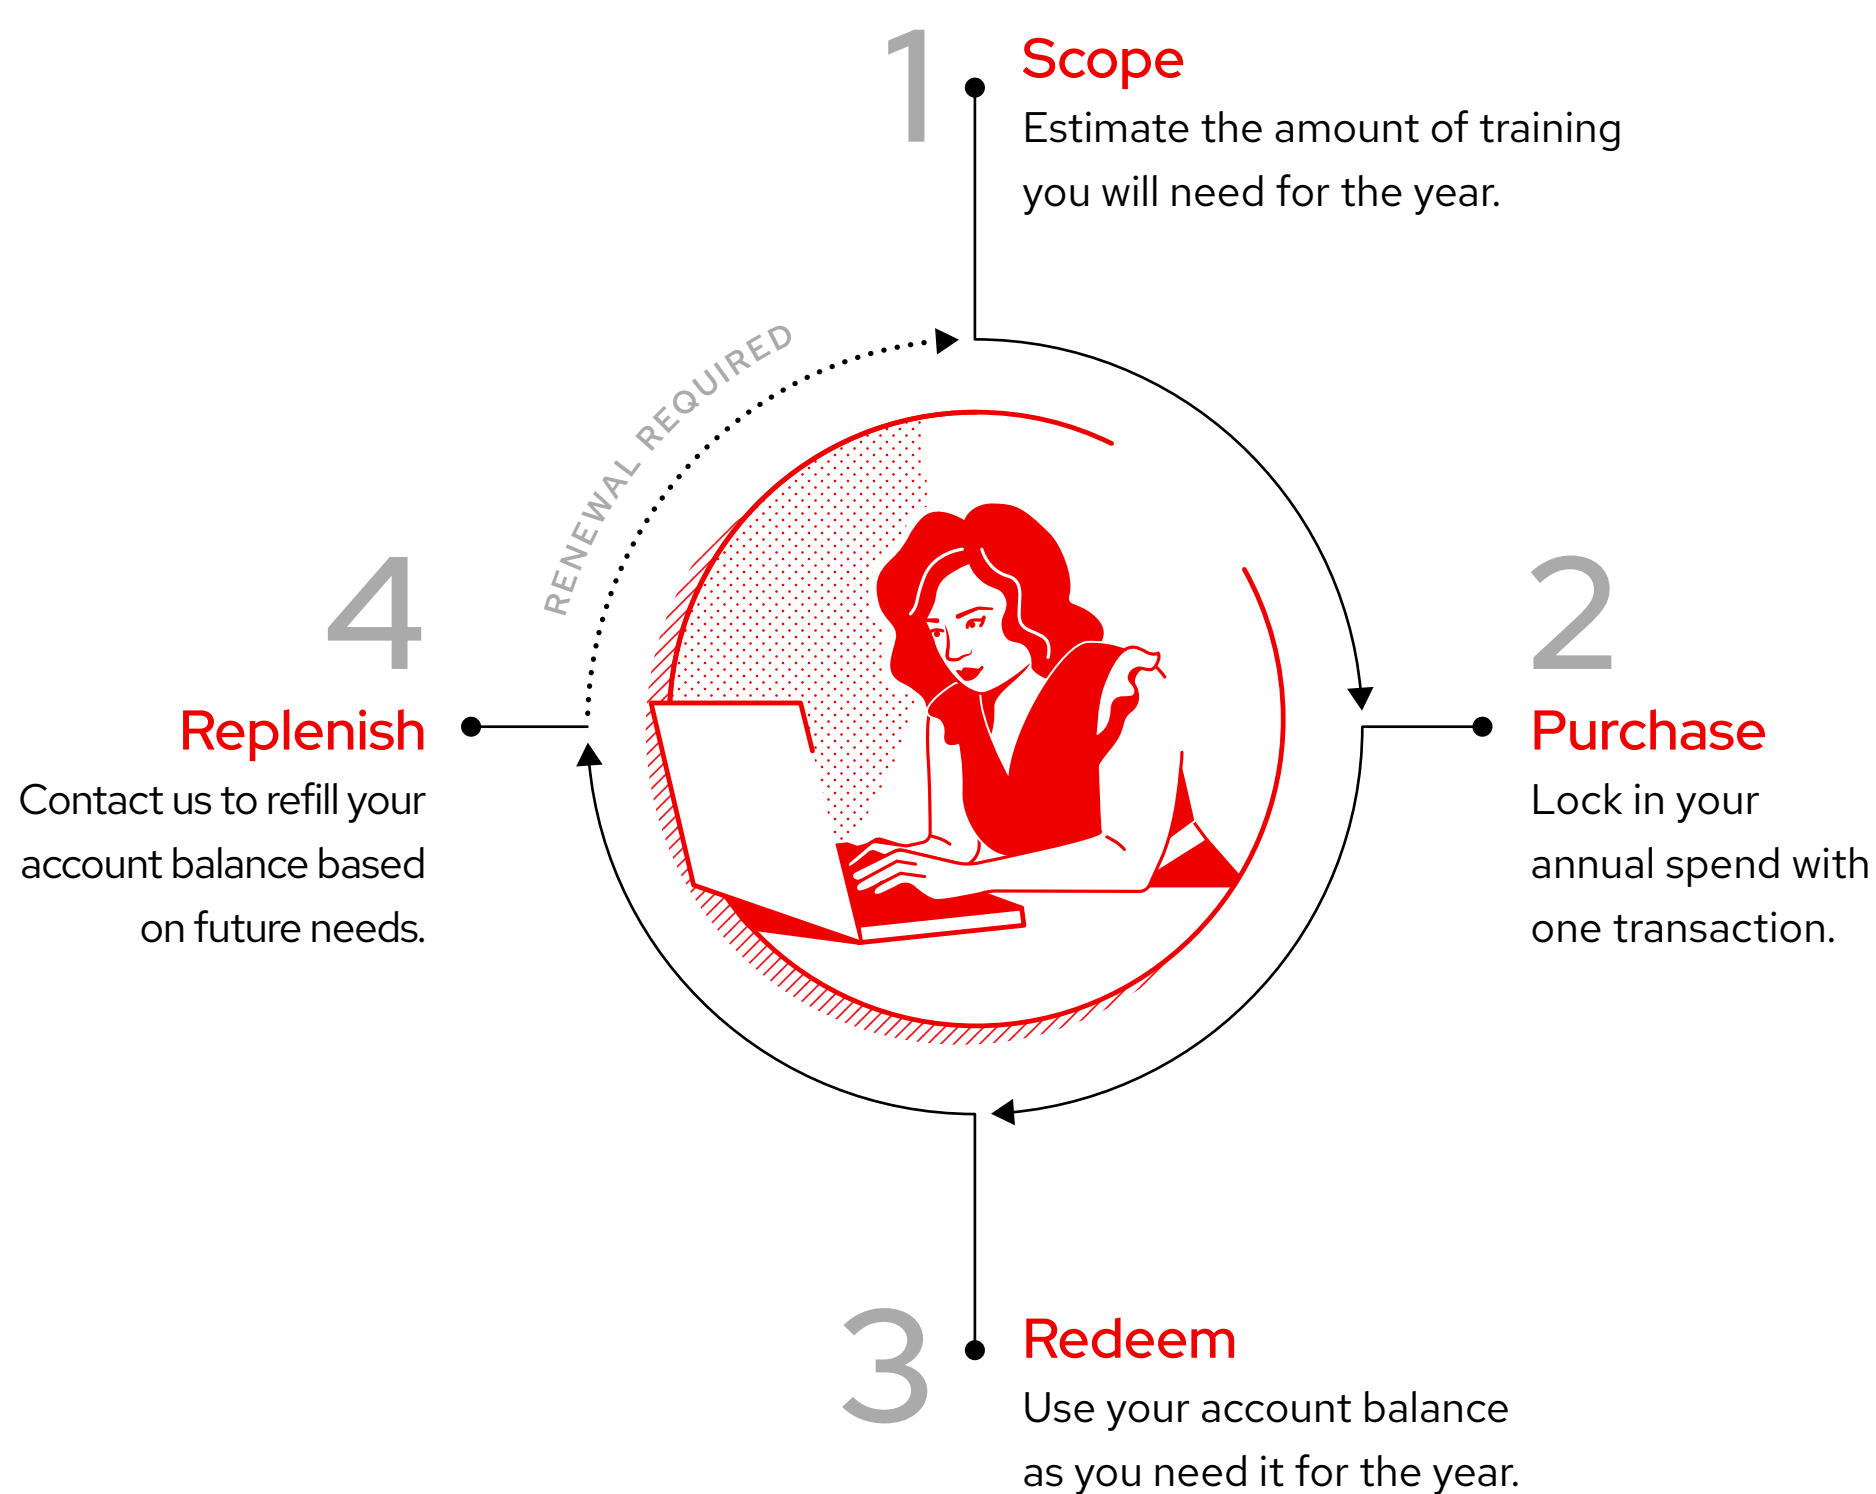

## What are training units?

When training their teams, IT organizations need flexibility. Training units from Red Hat allow IT departments to invest in skills enablement up front, with the flexibility to later decide on the specific courses, locations, and participants.

- ▶ **Use training units to secure your annual training budget—and keep your teams' skills up to date on the Red Hat® technologies you have implemented.**

## How to simplify your training management

## Training unit benefits

**Transactional ease**  
Make one purchase for your annual training.

**Financial security**  
Secure budget in advance for a year of training.

**Reporting benefits**  
Get a comprehensive view of your organization's skills development.

**Flexible use**  
Use your balance on any Red Hat Training and Certification offering.
